### **DETAILED ACTION**

The amendment filed May 28, 2004 has necessitated the following restriction.

#### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-13 and 16-18, drawn to a method of compacting a mat.

Group II, claims 20, 23, 24 and 33, drawn to a compactor.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the structure now recited in the claims of Group II is a technical feature not required by the method of Group I and the method of Group I could be carried out by an apparatus having a different structure than that of Group II.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
